Tues Feb 10, 2026 - 7:00pm, via **ZOOM ONLY**. "Using AI and Other Genealogy Innovations" with Alan Jones. This program is a part of the monthly Ohio 250th Commission themes celebrating our nation's 250th anniversary: Ohio Works Innovation & Industry. Don't let technology scare you away from family research. The latest innovations actually make family research easier and more fun. Bring your questions. Alan Jones, a retired computer software engineer, began genealogy research with a hand-cranked microfilm reader. Now, he tests new FamilySearch features and genealogy software programs, indexes records and volunteers at the Kirtland Family Search Center. **Registration required**. Short business meeting at 7:00pm prior to the program.
